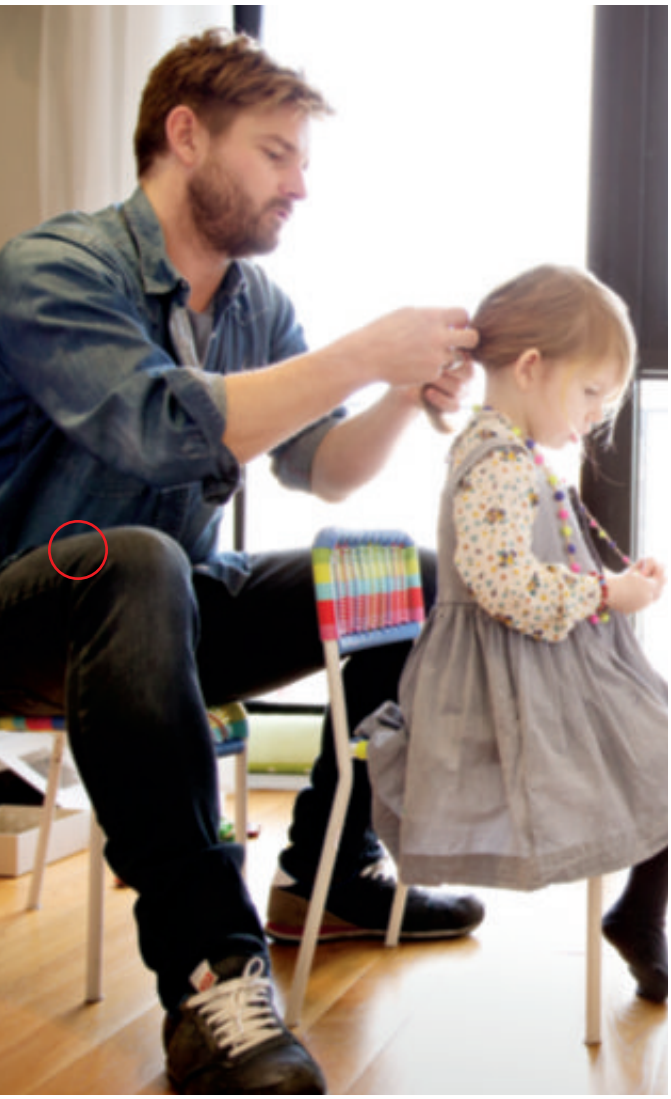
2016 HOME APPLIANCE CATALOG

Whirlpool®

Every day, care.™

Every meal you cook, every dish you wash, every shirt you clean—that's caring. And every act of care you give, day in and day out, helps the people you love become people who love. That's why at Whirlpool, we believe that helping you care for the ones you love is the most important thing we can do.



Whirlpool®

Whirlpool
Clyde Operation

Investing in the U.S.

For over a century, Whirlpool Corporation has been helping America's families care for each other. It starts by investing in the thousands of employees working in our headquarters here in the U.S. and our nine U.S. manufacturing sites. We're proud to employ more appliance manufacturing employees in the U.S. than any of our major competitors.

Caring for our communities

Whirlpool brand is dedicated to helping families thrive. That's why we support the efforts of Habitat for Humanity® to provide affordable housing and have donated a range and a refrigerator to every Habitat for Humanity® home built in North America since 1999.

Habitat for Humanity®

HABITAT FOR HUMANITY is a registered trademark of Habitat for Humanity International, Inc.

Care for your clothes, whether you're home or away

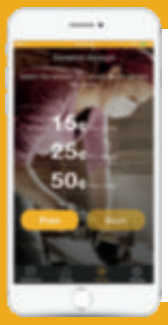
Our smart top load laundry pair and mobile app* help you care for your family. Learn more on pages 36 and 44.

WTW8700E WE/GD8700E

Remotely start cycles and receive push notifications when they're done

Customize your care with specialty cycles, available as free downloads

Integrate with your Nest Learning Thermostat to help save energy with the dryer**



When you care for your family, you can care for others

Our mobile app with the Connect to care™ program allows you to make a donation to help families in need each time you wash a load of laundry.*

*Requires WiFi and account creation. App features and functionality subject to change. Subject to terms of service available at whirlpool.com/connect. Data rates may apply. **Savings may vary across load type or cycle.

Leading the way with innovation

Inspired by the way families care for each other, these smart, sustainable appliances are all CES Innovation Award Honorees.

FRONT LOAD LAUNDRY

Give your family's clothes the care they deserve in fewer steps

Load & Go™ system

Fill it, forget it and have the detergent you need every time. The Load & Go™ bulk dispenser holds enough detergent to wash up to 12 loads* of laundry so you can skip adding it to every load.

All-In-One Care™ system

Wash and dry tomorrow's outfit in the washer thanks to the Wash & Dry cycle with FanFresh® technology.** Plus, the FanFresh® option keeps clothes fresh for up to 12 hours after the wash cycle stops so you can finish laundry when you're ready.

SkipSteps™ system

Eliminate extra work and finish laundry faster. The Presoak option soaks clothes right in the washer and then starts the wash cycle automatically. Using increased wash action and heat, the Steam Clean option provides even more help in removing everyday stains.

NOTE: Not all features available on all models.
Models shown: Front Load Washer WFW92HEFC,
Front Load Dryer WE/GD92HEFC and Laundry Pedestals XHPC155YC

*Based on an 8-lb load. **Based on a 2-lb load of lightweight fabrics, 12-hour cycle.

TOP LOAD LAUNDRY

Give your family's clothes the care they deserve in fewer steps

Load & Go™ system

Fill it, forget it and have the detergent you need every time. The Load & Go™ bulk dispenser holds up to a month's worth of detergent* so you can skip adding it to every load.

Total Laundry Care system

Protect fabrics with gentle, yet effective, washing and drying. Keep clothes looking newer longer,** thanks to Adaptive Wash technology with Active Bloom™ wash action, and help prevent damage caused by overdrying with Advanced Moisture Sensing in the dryer.

QuickSelect™ system

Create customized cycles by selecting "what" and "how" you want to wash or dry with Intuitive Touch Front Controls. They even remember your last settings to save you time. The industry's first front-lid controls on the washer offer faster access while being easy to reach when you need them and out of the way when you don't.

NOTE: Not all features available on all models.
Models shown: Top Load Washer WTW9500EC and Top Load Paired Dryer WE/GD9500EC

*Up to 14 loads (14 lbs) per month. **Models WTW7000D, WTW7300D, WTW8000D, WTW8500D, WTW8700E and WTW9500E. Compared to our pre-2009 agitator washer.

SPECIALTY LAUNDRY

Designed to fit where you need them

Total Laundry Care system

Protect fabrics with gentle, yet effective, washing and drying. Dryers with the AutoDry™ drying system automatically sense when clothes have reached the right moisture content and stop the cycle to help prevent overdrying.

ReadySet™ system

Convenient features help you save time in your daily routine. To help prevent wrinkles from setting into clean, dry clothes, the Wrinkle Shield™ option tumbles the dryer every 5 minutes after the cycle is complete for up to 150 minutes.

Fit for small spaces

Combination laundry pairs save space while still providing plenty of capacity and high-efficiency performance. Compact washers and dryers are another option for homes where room is at a minimum.

NOTE: Not all features available on all models.

LTG5243D

Washer Accessories

affresh® Washer Cleaner

Effectively reduces odor-causing residue in all washers. Keeps your machine fresher and cleaner when used monthly. Contains 3 pucks. – **W10135699**

Detergent Dispensing Cartridge

Adds the right amount of detergent at the right time during the cycle.
Extra dispenser provides flexibility in changing detergent.
WFW92HEF, WFW9290F – **W10250743A**

Industrial Grade Washer Hoses

Industrial strength hoses safely and efficiently transport hot and cold water to the washer.
(2) 6' nylon braided hose with 90 degree elbow – **8212638EP**
(2) 5' nylon braided hose – **8212487RP**
(2) 5' red & blue EPDM hose – **8212545RP**
(2) 10' black EPDM hose – **8212656RP**
(2) 4' black EPDM hose – **8212546RP**
(2) 5' black EPDM hose – **8212641RP**

Single Dose Dispenser Cup

Can replace a Detergent Dispensing Cartridge to dispense single doses of liquid detergent.
WFW92HEF, WFW9290F – **W10340677A**

Washer Accessories

2' siphon break kit – **285834**
4' drain extension kit (includes coupler, 2 clamps and 4' drain hose with fitted end) – **DRNEXT4**
Drain reducer kit – **40923**

Pair Accessories

Front Load Stack Kits

Install the dryer over its matching washer with this kit.
WE/GD75HEF, WE/GD7590F, WE/GD87HED, WE/GD90HEF, WE/GD92HEF – **W10298318RP**

LAUNDRY GLOSSARY

All-In-One Care™ system

Wash and start the drying process in the washer with the All-In-One Care™ system.

FanFresh® option

After the wash cycle, a built-in washer fan circulates air in the washer, keeping your clean clothes fresh and free from odors for up to 12 hours.

Wash & Dry cycle with FanFresh® technology

Wash and dry a small load in the washer* with this cycle. A fan automatically activates so you can get tomorrow's outfit or sports uniform ready without having to use the dryer.

AnyPlace™ system

With flexible designs and features that allow for installation where you want it, the AnyPlace™ system helps you find the right spot for your washer and dryer.

HybridCare™ true ventless heat pump technology for flexible installation

Dryers with HybridCare™ true ventless heat pump technology install in more places.

Quiet Spin 360 technology

Install your top load washer on a second floor and be assured of great out-of-balance performance and vibration control with this ball-balancing system.

Quiet Wash/Dry noise reduction systems

Keep operational sounds inside the washer and dryer and out of living areas with sound-absorbing materials around the wash basket and dryer drum. Escalating levels of sound reduction are available, up to Quiet Wash Ultra and Quiet Dry Ultra.

Shallow-depth fit

Get a space-saving design with a shallower depth that allows for more flexible installation in your laundry space.**

Stainless steel dryer drum with sound-dampening technology

Worry less about the sound of metal buttons and zippers making noise as they tumble, thanks to a unique sound-dampening material that surrounds the stainless steel dryer drum. The dryer runs quietly, even when you load items with metal accents.

Visible ball balancer

Install your front load washer on a second floor and be assured of great out-of-balance performance and vibration control.

CareSync™ system†

Connect to your appliances and care for your family and home from your phone or tablet, thanks to remote control and the other smart features of the CareSync™ system.

Connect to care™ program

Each time you care for your clothes and family, you can now care for families in need. The Connect to care™ program allows you to opt into making a donation via the mobile app every time you wash a load of laundry.

Download & Go™ option

You'll never feel tied to the Normal cycle again with specialty cycles, only from Whirlpool brand. Released seasonally as free downloads through the mobile app, cycles for everything from swimwear to sleeping bags are designed to provide optimal care for each item. Plus, you can create and save your own unique cycle to wash exactly the way you want with the mobile app, and then download the cycle directly to your washer using the Download & Go™ option.

Energy tracking

The energy-saving feature available through the mobile app can even be integrated with your Nest Learning Thermostat™. Nest recognizes when you're away from home and switches the dryer to Eco Mode to save energy with a more efficient cycle.†† And you can take advantage of the Rush Hour Rewards program to avoid running the washer during peak energy usage hours in the summer.‡ This energy-saving option is also available without the Nest Learning Thermostat™.

Remote diagnostics

Wash clothes more efficiently with helpful Laundry Alerts, which let you know if there's a detergent overfill or an unbalanced load that may affect performance. You'll also receive step-by-step instructions and select how-to videos to help guide you through quick fixes with the Diagnostic Tool.

ColorLast™ system

The ColorLast™ system uses the ideal wash options to help you keep colors vibrant longer.

ColorLast™ cycle

Give your most vibrant colors the care they need with a precise combination of wash action, gentle temperatures and time to keep colors vibrant longer.‡‡

*Based on a 2-lb load of lightweight fabrics. **33" install depth compared to Whirlpool® models with 37-3/8" install depth. †Requires WiFi and account creation. App features and functionality subject to change. Subject to terms of service available at .whirlpool.com/connect. Data rates may apply. ††Savings may vary across load type or cycle. ‡Rush Hour Rewards not available in all locations. ‡‡Compared to our pre-2009 agitator washer.

LAUNDRY GLOSSARY

Load & Go™ system

You'll be able to fill it and forget it and have the additives you need without refilling each time with the Load & Go™ system.

Load & Go™ bulk dispenser
Holds enough detergent to wash up to 12 loads¥ of laundry on front load models and up to a month's worth of detergent¥¥ on top load models.

QuickLoad™ system

Transfer even bulky items with ease from washer to dryer with help from the QuickLoad™ system.

Drop-down hamper door
Easily move clothes from the washer to the dryer with the help of our hamper door. This feature is also great for when it's time to sort and fold your laundry.

Front load laundry pedestals
Raise your front load washer and dryer to a more comfortable height for loading and unloading. Some pedestals also offer convenient storage for laundry essentials.

QuickSelect™ system

The QuickSelect™ system helps you get started and make changes fast with easy-to-operate controls and features.

Intuitive Touch Controls with Memory
Easy "what" and "how" controls effortlessly help you create customized cycles. Plus, they even remember your last settings to save you time.

Tap Touch controls with Memory
Allow direct access to washer and dryer functions with a sleek appearance that enhances the appeal of any space.

ReadySet™ system

The features of the ReadySet™ system work with your schedule instead of interrupting it to help your day go smoothly.

Delay Wash option
Sets the washer to begin cleaning later so you can unload or transfer clothes to the dryer when it is more convenient.

Quick Dry cycle
Finish drying a small load quickly.

Quick Wash cycle
Designed to clean small, lightly soiled loads in less time using increased spin speeds to extract more water.

Steam Refresh cycle
Releases wrinkles and reduces odors without rewashing so clothes are ready to wear.

TumbleFresh™ option
Activates after the wash cycle is finished and rolls clean clothes periodically to help prevent wrinkles from setting in. Clothes stay fresh without having to transfer them to the dryer immediately.

Wrinkle Shield™/Wrinkle Shield™ Plus option with Steam
Tumbles the dryer every 5 minutes after the cycle is complete to help prevent wrinkles from setting into clean, dry fabrics. The intermittent tumbling can continue for up to 150 minutes (based on the model) or until the door is opened and the load is removed. Wrinkle Shield™ Plus option adds steam to the tumbling for improved results.

Resource Saver™ system

Help the environment and decrease utility bills with the energy-efficient options and cycles of the Resource Saver™ system.

EcoBoost™ option
In the washer, this option uses a lower temperature and increased spin speed or mechanical action to provide excellent cleaning and reduce your overall energy use.§ In the dryer, this option saves energy by using less heat and an increased cycle time.

HybridCare™ energy options
Dry each load your way. The Eco option increases energy efficiency and utility savings,§ while the Speed option helps you get out the door faster by quickly drying clothes. The Balanced option offers the best of both time and energy savings for everyday loads.

SkipSteps™ system

Eliminate extra work and simplify the laundry process with the features of the SkipSteps™ system.

Active Spray technology
Sprays the load with detergent in a cone-shaped pattern to completely and evenly cover the fabrics.

Presoak option
You won't have to spend time soaking clothes in the sink with the Presoak option that soaks clothes right in the washer and then starts the wash cycle automatically.

SingleSwipe™ lint screen
Makes removing lint from your dryer easy, helping to improve air flow in every load and keep lint off your clothes.

Steam Clean option
Keep clothes looking great with this option that penetrates fabrics using increased wash action, rinsing and heat for even more help in breaking down deep soils like grass and dirt stains.

¥Based on an 8-lb load. ¥¥Up to 14 loads (14 lbs) per month. §Savings may vary across load type or cycle.

LAUNDRY GLOSSARY

Total Laundry Care system

Help protect items from damage with the gentle, yet effective, washing and drying provided by the Total Laundry Care system.

AccuDry™ sensor drying technology
Measures moisture and temperature levels to help reduce overdrying and automatically stop the cycle when the load is dry.

Active Bloom™ wash action
Works to thoroughly saturate clothes with water and detergent by using advanced wash actions that help clothes wash against one another for gentle fabric care.

Adaptive Wash technology
Senses each load type and then adapts water levels and wash actions, based on the type of load being washed. Select models even keep clothes looking newer longer.*

Advanced Moisture Sensing
Uses three sensors to track moisture and temperature. This adapts drying times to end the cycle when clothes are perfectly dry and helps to prevent damage caused by overdrying.

AutoDry™ drying system
Automatically senses when clothes have reached the right temperature and stops the cycle to save energy.

Care Control temperature management system
Adjusts the cold and hot water inlets to reach temperatures that are warm enough to dissolve detergents but keep the water from overheating.

Additional features

Allergen cycle
Removes up to 95% of common allergens from your clothes.**

Automatic load size sensing technology
Automatically determines the correct water level for the load size in the washer.

CEE Tier standards
Based on the Consortium for Energy Efficiency (CEE) qualifying product lists. These models feature advanced water and energy savings and may qualify for rebates from local utility companies. Visit cee1.org for more information.

Clean Washer cycle with affresh® Washer cleaner
Deep-fills the washer to clean areas that low-water systems don't typically reach. All it takes is one cup of bleach. Using affresh® Washer cleaner also effectively reduces odor-causing residue.

Cold Wash cycle
Uses adaptive wash actions together with a concentrated solution of HE detergent and cold water to gently lift stains and soils from fabrics. This cycle delivers great cleaning while protecting fabrics from heat damage.

Deep Clean option
Penetrates deep into fabric fibers, breaking down and dissolving stains without pretreating. Select models add steam enhancement for even better cleaning.

Deep Water Wash cycle
Helps break down loose soils by using more water and thorough cleaning.

Direct drive motor
Uses fewer moving parts to help our new transmission system handle larger-capacity loads with less wear and tear over time.

EasyView™ frameless glass lid with slow-close technology
Create a quiet close every time with slow-close technology that shuts quietly for an overall premium experience. The lid also provides a better view of what's being washed.

ENERGY STAR® certified
Meets government standards to help conserve natural resources and save money on your utility bills.

Flat back design
Allows you to install your dryer in places like closets, cupboards or small utility rooms where space is limited.

HE agitator with fabric softener dispenser
Get high-efficiency cleaning and fabric softener dispensing at just the right time with the HE agitator with fabric softener cap.

Long vent design
Enjoy great drying performance even when installation requires a longer vent system. These dryers are ideal for apartment buildings and condo complexes.

Low-profile impeller
Gives clothes a thorough yet gentle clean. It features a seamless surface and unique vanes to drive clothes from the outer rim to the center, where the deepest cleaning happens.

Oxi Dispense option
Boosts whitening performance with an eco-friendly alternative to bleach. An automatic dispenser distributes the oxygenated additive at the appropriate time, sending oxygen through the load to brighten fabrics.

Precision Dispense
Senses and adapts to each load, adding detergent, bleach or fabric softener at just the right time. A concentrated burst of detergent showers directly onto clothes to penetrate stains and pretreat soils.

*Models WTW7000D, WTW7300D, WTW8000D, WTW8500D, WTW8700E and WTW9500E. Compared to our pre-2009 agitator washer.
**Allergens tested were dust mites and pet dander.

LAUNDRY GLOSSARY

Quad dryer baffles
Four shorter, staggered baffles increase the effectiveness of the dryer and promote better, more even tumbling on smaller loads.

Sanitize cycle
Provides excellent care for your clothes while eliminating 99.9% of three common household bacteria.†

Smooth impeller
Select high-efficiency wash systems feature a specially designed low-profile plate at the bottom of the wash basket to give you more wash capacity and great fabric care.

Smooth Wave stainless steel wash basket
Resists odors and rust and features a spiral design for great fabric care and gentle cleaning performance.

Smooth white porcelain wash basket
Steel coated with porcelain, this basket has a smooth, durable finish that resists scratches, chemicals and rust to help protect fabric from snags and discoloration.

Spreckle porcelain wash basket
A smooth porcelain surface resists scratches, chemicals and odors and helps protect fabric from snags so your family's clothes stay looking their best. The spreckled coloring also makes it easy to spot small items.

Stainless steel washer and dryer drum
The drum's stainless steel construction has a smooth surface that resists odors, rust and chipping and helps prevent fabrics from snagging or tearing.

Static Reduce option
Uses tumbling and a spray mist in the dryer to evenly reduce the amount of static in an entire load of clothes.

†Bacteria tested were *K. pneumoniae*, *P. aeruginosa* and *S. aureus*.

FRENCH DOOR & BOTTOM-FREEZER REFRIGERATORS

Fit and find it all with special storage spots throughout

PerfectPlaces™ system

Purposeful storage zones give you ideal spaces for the items you use most. Infinity slide shelves allow you to put small items on the sides and large, high-traffic items in the center. The adjustable center panes slide back and stop at any point to give you the room you need for tall items. Stadium dividers in gallon door bins raise small items up in the back and put an end to searching for hidden jars and bottles.

StoreRight™ system

Give fresh and frozen food ideal cooling environments. Advanced dual cooling technology creates the right environment in the refrigerator and the freezer by sensing conditions and adjusting humidity levels automatically.

QuickShift™ system

Make the room you need with flexible features that adjust to make everything fit. Raise or lower the infinity slide shelves two inches simply by turning the first-ever flip adjusters to move the shelves without unloading a thing.

NOTE: Not all features available on all models.

SIDE-BY-SIDE REFRIGERATORS

Space-saving storage for fresh and frozen foods

PerfectPlaces™ system

Purposeful storage zones give you ideal spaces for the items you use most. In-Door-Ice® storage moves the ice bin to the door to give you back an extra full shelf in the freezer. Free up even more shelf space with gallon door bins that allow you to store milk, juice and other large containers in the door.

CompleteClean system

Clean up kitchen messes quickly. Spillproof shelves contain leaks and prevent spills from dripping onto other shelves.

StoreRight™ system

Give fresh and frozen food ideal cooling environments. Advanced dual cooling technology creates the right environment in the refrigerator and the freezer by sensing conditions and adjusting humidity levels automatically.

NOTE: Not all features available on all models.
Models shown: Side-by-Side Refrigerator WRS975SIDM, Over-the-Range Microwave WMH76719CS, Front Control Gas Range WEG730H0DS

TOP-FREEZER REFRIGERATORS

Classic configuration with top innovations

EasyView™ system

Thoughtful design keeps everything in sight to help you find just what you're looking for. LED interior lighting reduces shadows in corners and under shelves to help keep your refrigerator bright and food in sight.

QuickShift™ system

Make the room you need with flexible features that adjust to make everything fit. The Flexi-Slide™ bin moves side-to-side so you can make space for larger items.

PerfectPlaces™ system

Purposeful storage zones give you ideal spaces for the items you use most. Store milk, juice and other large containers in the door to free up shelf space with gallon door bins. Humidity-controlled double crispers provide the ideal space for fruits and vegetables at the right temperature.

NOTE: Not all features available on all models.

TOP-FREEZER REFRIGERATORS

CHEST & UPRIGHT FREEZERS

Convenient configurations for every home

CompleteClean system

Clean up messes quickly. Whirlpool® chest freezers offer rounded corners instead of hard-to-reach edges for easier access during cleaning.

StoreRight™ system

Keep frozen food in its ideal environment. Select Whirlpool® freezers include a temperature alarm that notifies you when the freezer's temperature rises if the door is left open.

PerfectPlaces™ system

Purposeful storage zones give you ideal spaces for the items you use most. The pizza pocket in the upright freezer door removes the hassle of trying to fit frozen pizzas on flat shelves, and gallon door bins free up even more shelf space.

NOTE: Not all features available on all models.

UNDERCOUNTER REFRIGERATORS & WINE CELLARS

Specialty storage for entertaining

StoreRight™ system

Chill your favorite wine and beverages at the ideal temperature. To help you monitor this, a high temperature alarm notifies you when the temperature rises if the door is left open.

EasyView™ system

Thoughtful design keeps everything in sight to help you find just what you're looking for. Your wine cellar or undercounter refrigerator stays bright with LED interior lighting that reduces shadows in corners and under shelves.

QuickSelect™ system

Get started and make changes fast. Conveniently located exterior temperature controls allow you to adjust to the ideal temperature for whatever beverages you are storing.

NOTE: Not all features available on all models.

REFRIGERATION GLOSSARY

CareSync™ system*

Connect to your appliances and care for your family and home from your smart phone or tablet, thanks to remote control and the other smart features of the CareSync™ system.

WiFi connectivity
With the Whirlpool® mobile app,* you can integrate your refrigerator with your Nest Learning Thermostat™, get maintenance alerts with reminders to change the air and water filters, immediately know about a power or WiFi outage and more.

CompleteClean system

The features of the CompleteClean system make kitchen cleanup quick and less of a hassle.

Defrost drain with attachable hose
Whirlpool® chest freezers with this feature offer more convenient defrosting with less mess.

Fingerprint-resistant stainless steel
Hides fingerprints and smudges and easily wipes clean.

Frost-free design
Automatically helps prevent frost build-up so you'll never have to empty the freezer for a manual defrost again.

Rounded corners
Whirlpool® chest freezers offer rounded corners instead of hard-to-reach edges for easier access during cleaning.

Spillproof shelves
Help contain spills and simplify cleanup, preventing liquids from leaking onto shelves below.

EasyView™ system

With the EasyView™ system, thoughtful design keeps everything in sight to help you find just what you're looking for.

Clear door bins
Easily view items stored in the door so you can find what you're looking for.

LED interior lighting
Puts a spotlight on food and casts a more natural light on the contents of your refrigerator so food looks as it should.

Panoramic LED lighting
Makes finding items in your refrigerator easier by surrounding food with light. By placing lights throughout the refrigerator, shadows are reduced from every angle.

Underlit shelves
You'll see just what you're looking for thanks to underlit shelves that provide 50% more brightness under the shelf.

HelpingHand™ system

Inspired by your personal routine, the features of the HelpingHand™ system help you manage the daily chaos of your kitchen.

Measured Fill
Allows you to select the exact amount of filtered water—in ounces, cups or liters—that you need. The dispenser will fill the container and automatically shut off when complete.

PerfectPlaces™ system

The PerfectPlaces™ system is designed with purposeful zones to give you the ideal spaces for the items you use most.

4-temperature selection drawer
Put frequently used items in easy reach with a true refrigerated drawer. It features temperature controls that let you make adjustments based on which refrigerated items you'd like to store—from fresh produce to cold drinks.

5-temperature selection drawer with a thaw setting
Offers five custom settings—Meat/Fish, Snacks, Cold Drinks, Deli/Cheese and Thaw. The thaw setting provides an ideal environment to thaw frozen food at just the right temperature, away from other foods in the refrigerator.

Auto-humidity crispers
Fit fruits and veggies of all shapes and sizes in crisper bins featuring automatic humidity control to help it all stay fresh. The deep, left crisper is ideal for large produce and has a divider to keep it organized, while the right crisper holds smaller items and keeps them in place.

Butter bin
Provides an ideal environment for storing butter.

Can caddy
Holds and dispenses beverage cans to make accessing your favorite beverages quick and easy.

Chest freezer storage bins
Provide convenient storage options for better organization.

Deli drawer
Store plenty of meat and cheese with a deli drawer.

Double crisper
Store fruits and vegetables in their ideal environment with the two drawers of a double crisper.

*Requires WiFi and account creation. App features and functionality subject to change. Subject to terms of service available at: whirlpool.com/connect. Data rates may apply.

REFRIGERATION GLOSSARY

Extra full shelf with In-Door-Ice® storage
In-Door-Ice® storage moves the ice bin to the door, creating room for an extra shelf in the refrigerator or freezer compartment.

Fold-away shelf
Adjustable shelf temporarily creates more space for tall items.

Full-width crisper
Allows you to store a wide array of fruits and vegetables.

Full-width pantry
Features a wide opening and holds large items like deli trays and sheet cakes.

Gallon door bins
Easily accommodate beverage jugs and other large containers in the door to free up shelf space.

Humidity-controlled crisper
Help preserve the freshness of fruits and vegetables with this crisper's selectable humidity levels.

Infinity slide shelves
Designed to take advantage of every last inch of space, a pantry-inspired layout with industry-first infinity slide shelves allows you to put small items on the sides and large, high-traffic items in the center. The adjustable center panes slide back and stop at any point to give you the room you need, even if it's just an inch, so you can fit and find it all.

Pizza pocket
Easily stores frozen pizzas upright without the hassle of trying to fit them on flat freezer shelves.

Platter pocket
Wide, flat items like brownie pans, lasagna and pizza boxes stay tucked out of the way in this special spot designed specifically to keep them safe from stacking.

Produce drawer
Enjoy another spot to store fruits and vegetables. A FreshFlow™ produce preserver makes it the ideal environment to keep them tasting great.

Quad crisper
Have plenty of space for all your fresh produce with this crisper option, available on the SideKicks® all refrigerator.

Refrigerated exterior drawer
Put frequently used items in easy reach with a true refrigerated drawer. It features temperature controls that let you make adjustments based on which refrigerated items you'd like to store—from fresh produce to cold drinks. The full extension drawer and dividers also make it easy to organize and find what you need quickly.

Small items bin
Keep snacks close at hand. This snack compartment with sliding glass lids makes accessing everyday items easy with greater flexibility.

Smooth glide crisper
Get quick, easy access to the fruits and veggies stored in this crisper.

Stadium divider
Put an end to searching for hidden jars and bottles. This removable insert can be placed in any gallon door bin and is designed with a step to raise small items up in the back so you can always see them.

Temperature-controlled drawer
Store wide items like party platters and sheet cakes and manage the temperature with manual controls.

Treasure™ bin
Keep grab-n-go items in this easy-to-access lidded bin made just for them.

Triple crisper
Increases storage flexibility with two larger crispers with humidity controls and a center, smaller crisper.

Triple-tier freezer storage
Two upper sliding drawers and a spacious lower basket make organizing frozen food easy. Plus, easily customize freezer storage and organize frozen food with the movable freezer divider bin.

Two-tier freezer storage
Easily organize frozen favorites with two-tier freezer storage, including two sliding bins.

Tuck shelf
This adjustable shelf has two positions to temporarily create more space for tall items. The front half slides under the back half.

Wine rack
Provides a convenient under-shelf location for chilling wine in the refrigerator.

QuickSelect™ system

The QuickSelect™ system helps you get started and make changes fast with easy-to-operate controls and features.

Electronic temperature controls
Convenient, up-front electronic temperature controls let you choose the ideal temperature for whatever foods you're storing.

Exterior manual temperature control
Conveniently located controls allow you to adjust to the ideal temperature for whatever foods or beverages you are storing.

Freezer temperature controls
To keep frozen items ice cold, freezer temperature controls allow you to adjust the temperature level of cold air in the freezer compartment.

REFRIGERATION GLOSSARY

QuickShift™ system

The QuickShift™ system helps you make the room you need with flexible features that adjust to make everything fit in a snap.

Flexi-Slide™ bin
Quickly and easily moves side-to-side for convenient storage options, so you can adjust space for items as needed.

Flip adjusters
Get more vertical room when you need it without unloading a thing. The first-ever sturdy flip adjusters raise or lower the infinity slide shelves two inches with a simple turn while the shelves are fully loaded.

ReadySet™ system

The features of the ReadySet™ system work with your schedule instead of interrupting it to help your day go smoothly.

Dual icemakers
Help you keep plenty of ice on hand for entertaining, filling coolers and more.

Factory-installed icemaker
Keeps you from having to fill ice trays in order to have ice on hand.

Fast ice
Drops the freezer temperature in select models for a full 24 hours to increase ice production by over 30%.*

StoreRight™ system

The StoreRight™ system provides the ideal cooling environments for fresh and frozen food.

Accu-Chill™ temperature management system
Built-in sensors measure the internal temperature and activate the compressor only when necessary to conserve energy while helping to keep food fresh.

Adaptive defrost
Monitors when the compressor is running and defrosts only when necessary, resulting in improved food preservation and energy savings.

Automatic defrost
Refrigerators with this system melt away frost so you don't have to take everything out of your freezer to melt built-up ice.

Dual cooling
Advanced dual cooling technology creates the right environments in the refrigerator and the freezer thanks to sensors that monitor and automatically adjust the temperature and humidity levels.

Dual temperature-controlled zones
Select wine cellars and beverage centers feature dual temperature-controlled zones. You can adjust the settings in each to provide the ideal environments for different types of wine or other beverages.

Fast Cool option
Quickly lowers the refrigerator's temperature at the push of a button. Select Fast Cool after filling your refrigerator with groceries to quickly cool fresh food.

Fast Freeze
Drops the freezer's temperature as low as it can go in the shortest amount of time. Activate Fast Freeze just before adding large amounts of unfrozen food.

FreshFlow™ air filter
This smart air filter is up to 15 times more effective than baking soda in removing common food odors. Replace the filter every 6 months for optimal performance.

FreshFlow™ produce preserver
Helps keep produce fresh longer.** A cartridge absorbs ethylene gas that causes fruits and vegetables like lettuce and cantaloupe to over-ripen. Replace the filter every 6 months for optimal performance.

Linear compressor
Fewer moving parts result in less friction for greater efficiency.

Temperature alarm
Notifies you when the temperature rises to help you monitor the ideal environment for your foods.

Additional features

CEE Tier Standards
Based on the Consortium for Energy Efficiency (CEE) qualifying product lists. Visit cee1.org for more information.

CoolVox™ kitchen sound system
We made the kitchen pulse with energy by adding audio where it's never been before. Brought to you by Whirlpool brand, this innovative system features a premium Bluetooth™ audio device from Harman Kardon®, made specifically for the top of the refrigerator.

Counter depth design
Fits virtually flush with the countertop, providing up to 6 inches of additional kitchen space while retaining the features and capacity you expect from a Whirlpool® refrigerator.

Electronic ice and water dispenser
Dispenses filtered water on the outside of the refrigerator. A control lock feature prevents unintended operation. Select dispensers include an automatic LED night-light that adjusts brightness as the kitchen goes dark.

*Compared to normal ice production; select models only. **Based on commonly purchased produce.

REFRIGERATION GLOSSARY

ENERGY STAR® certified
Meets government standards to help conserve natural resources and save money on utility bills.

EveryDrop™ ice and water filtration system
Now all Whirlpool® water filters are EveryDrop™ ice and water refrigerator filters. Replace your filter every 6 months to maximize the reduction of contaminants.

EZ Connect icemaker kit
This optional icemaker makes it simple to add easily accessible ice to select top-freezer refrigerators.

Reversible side-swing freezer door
Instead of a freezer drawer, select bottom-freezer models feature a reversible side-swing door, which allows for additional storage bins in the door.

SideKicks® upright models
Place the refrigerator and freezer models side by side and get up to a combined 36 cu. ft. of storage for all your favorite foods.

RANGES

Designed for your home cooking

TimeSavor™ system

Start cooking right away with features that cut out routine steps. Frozen Bake™ technology helps you cook frozen foods faster* by allowing you to skip preheating for favorites like pizza, lasagna, chicken nuggets, fries or pies.

HeatRight™ system

Use the ideal settings to cook dishes properly. Fan convection cooking adds a rear fan to circulate hot air to reduce cold spots and temperature variations so you can bake on any rack. Upgrade to True convection cooking, which cooks food faster** with the addition of a third heating element.

CompleteClean system

Clean up kitchen messes quickly. AquaLift® self-cleaning technology uses just water and low heat for odor-free cleaning in only 50 minutes.† Upswept SpillGuard™ cooktops and easy-wipe ceramic glass cooktops make cleaning up spills quick.

NOTE: Not all features available on all models.
Models shown: Front Control Electric Range WEE730H0DS, French Door Refrigerator WRV986FDEM

*Compared to a traditional preheat and bake cycle for pizza, nuggets/fries, pies and lasagna. **Compared to traditional thermal-bake cycle on the same model. †Based on average cleaning time of self-clean cycle with water and moderate soils.

WALL OVENS

Fit home cooking into any kitchen

HeatRight™ system

Use the ideal settings to cook dishes properly. You're able to cook food faster* with True convection cooking's rear fan and third heating element that circulates hot air over, under and around food. Your oven will automatically adjust cooking times and temperatures of traditional recipes with Convection Conversion.

ReadySet™ system

Save time in your daily routine. Rapid Preheat heats the oven 25% faster** using all of the range elements and the True convection fan. Help food stay warm and ready to serve even when the family is running late with the Keep Warm setting.

CompleteClean system

Clean up kitchen messes quickly. Adjustable time self-cleaning takes on all kinds of messes in the oven with settings for light, moderate or heavy soils.

NOTE: Not all features available on all models.
Models shown: Double Wall Oven WOD97ES0ES, Gas Cooktop WCG97US0DS

*Compared to traditional thermal-bake cycle on the same model.
**Single rack baking with Rapid Preheat option versus three-rack without option.

COOKTOPS

Flexible features for more cooking options

QuickSelect™ system

Get started and make changes fast. Dual elements offer two elements in one to save space and accommodate various sizes of cookware. The FlexHeat™ burner provides accurate lower temperatures for your most delicate dishes with one row of flames and adds a second row for rapid boiling and searing.

ReadySet™ system

Convenient features help you save time in your daily routine. The SpeedHeat™ burner generates the high heat needed for rapid boiling, searing and frying. The Warm Zone element keeps food warm while the rest of the meal is being prepared.

CompleteClean system

Clean up kitchen messes quickly. Glass cooktops are easy to clean, while Upswept SpillGuard™ cooktops and sealed burners help contain spills and prevent food from dropping down into the burner area. Dishwasher-safe knobs and grates help keep your cooktop looking like new.

NOTE: Not all features available on all models.

MICROWAVES

Sense and adapt to conveniently heat up food

CookCoach™ system

With features that provide help each step of the way, you'll have the confidence to handle new recipes and favorites. Sensor cooking automatically adjusts the cook time so you don't have to guess.

HeatRight™ system

Use the ideal settings to cook every dish properly. True convection cooking uses a heating element to cook food faster.* Steam cooking conveniently steams foods such as rice, vegetables and fish with the microwave steamer.

CompleteClean system

Clean up kitchen messes quickly. A CleanRelease® non-stick interior reduces cleaning effort, while the SteamClean option uses steam and heat to gently release cooked-on food without harsh chemicals.

NOTE: Not all features available on all models.
Models shown: Over-the-Range Microwave WMH76719CS and Front Control Electric Range WEE730H0DS

*Compared to traditional thermal-bake cycle on the same model.

HOODS & VENTS

Seamless design and quiet operation

FIT system

Eliminate measuring, cutting and filler strips for a perfect fit every time.* Your hood will install seamlessly in three easy steps.

CompleteClean system

Clean up kitchen messes quickly. Dishwasher-safe grease filters make cleanup easy and convenient, so you can enjoy all of the benefits of your hood's filter and none of the mess.

Convertible ventilation

Choose between venting vapors and odors outside or filtering them and recirculating the air, depending on your kitchen's ventilation setup.

NOTE: Not all features available on all models.
Models shown: Wall Mount Canopy Hood WVW75UC6DS,
Gas Cooktop WCG97US6DS and Single Wall Oven WOS97ES0ES

*Based on typical installation with existing electrical and ventilation connections.
Consult a professional installer to ensure your installation complies with code requirements.

30" Hood – UXT2030AD

Features

- 2-speed, 190 CFM fan
- Dishwasher-safe grease filter
- Hidden vent
- Incandescent lighting
- Maximum 4.5 sones
- Vented only

UXT2030AD

Cleaning & Maintenance

affresh® Cooktop Cleaner

Cuts through tough, baked-on residue. Safe for all glass and ceramic cooktops. – **W10355051**

affresh® Kitchen & Appliance Cleaner

Cuts through everyday spills to leave a streak-free shine. Easily cleans inside refrigerator and microwave ovens. Now with a fresh, citrus scent. – **W10355010**

affresh® Stainless Steel Cleaner

Gently cleans fingerprints, smudges and other residue from stainless steel surfaces to leave a streak-free, polished shine. – **W10355016**

affresh® Stainless Steel Wipes

Gently clean fingerprints, smudges and residue to leave a streak-free, polished shine. Contains 35 use-and-toss wipes. Size 7" (H) x 9" (W). – **W10355049**

Oven Cleaning Kit

Offers everything you need to clean both gas and electric ovens featuring AquaLift® self-cleaning technology. Includes (1) scraper, (1) scrubbing sponge and (1) expanding sponge.
Retail polybag – **W10423113RP**
Retail box – **W10510627RB**
Factory Certified Parts polybag – **W10432017BU**

Replacement Scrubbing Pads

Use with affresh® Cooktop cleaner to remove light soils or water spots from glass and ceramic cooktops. – **W10391473**

Touch-Up Paint

Touch up appliance exteriors with this 0.6 fl. oz. bottle of touch-up paint. Includes applicator brush.
White – **72017**
Black – **72032**
Biscuit – **4392899**
Universal Silver – **8212473**

Cookware

Baking Stone

This 13" baking stone evenly distributes heat and moisture for lighter, crispier food. Suitable for use in regular convection and microwave ovens. – **4378577**

Griddle

An easy-to-clean, non-stick griddle for electric coil, gas and ceramic glass ranges. Place over two elements or burners for great grilled sandwiches or other dishes. – **4396096RB**

Microwave Crisper Pan

Prepare crisp bacon, potatoes or pizza in the microwave with this pan. 12¼" (Diameter) and 1½" (Deep). – **W10187336A**

Universal Microwave Steamer

Works in tandem with the steaming function to conveniently steam foods such as rice, vegetables and fish with fresh, pleasing results. 13¾" (H) x 8½" (W) x 5¼" (D). – **W10697165**

Freestanding Range Accessories

Double Oven Rack

Replace a standard cooking rack in Whirlpool® double oven ranges with this roll-out rack. Its easy-gliding design makes it simple to retrieve dishes from a hot oven. Offers enough strength to support two 16-lb turkeys. – **W10273852A**

Front Control Range Trim Kit

Cover the sides of the range for a more finished look.
White – **W10675027**
Black – **W10675026**
Stainless Steel – **W10675028**

12¼" L x 6" W x ⅛" D – **W10535950**

COOKING GLOSSARY

CompleteClean system

The features of the CompleteClean system make kitchen cleanup quick and less of a hassle.

Adjustable time self-cleaning
Allows for adjustment of the self-clean time in 15-minute intervals, according to your needs.

AquaLift® self-cleaning technology
Delivers easy, odor-free oven cleaning in only 50 minutes.* A special coating and water releases baked on foods from the bottom of the oven without cleaners. When the cleaning cycle is complete, soils and excess water can be easily removed with a dry towel.

Chrome drip bowls
Keep cooking cleanup to a minimum and keep spills from getting under the cooking surface.

CleanRelease® non-stick interior
No special cleaning solutions are required thanks to an industry-first non-stick interior. A simple wipe is all you need to clean up spills.

Easy-wipe ceramic glass cooktop
Withstands intense heat while resisting cracking or chipping, preserving the sleek look of your cooktop for years to come and making it easy to clean.

EZ-2-Lift™ hinged grates
Get quick access to spills with our industry-exclusive EZ-2-Lift™ hinged cast-iron grates. They're also removable for easy cleanup with a dishwasher-safe finish that resists wear and tear.

Hidden bake element
Simplifies cleanup with the bake element hidden beneath the oven floor, leaving a smooth interior surface that is easy to wipe clean.

Precise Clean™ self-cleaning
Tracks how long it has been since the last self-cleaning cycle and suggests just the right cycle time, so the self-cleaning cycle only lasts as long as necessary. No harsh chemicals or cleaners are required.

Sealed burners
No gap between the cooktop and these burners makes for a smooth surface that's easy to clean.

Self-cleaning
Automatically cleans the oven according to a preprogrammed cycle. Run this cycle to clean without harsh chemicals or special cleaners.

SteamClean option
Clean up everyday light spills using heat and only 1¼ cups of water—no harsh chemicals or cleaners needed.

Upswept SpillGuard™ cooktop
Raised edges help contain messes to make cleanup faster.

CookCoach™ system

You can count on the features of the CookCoach™ system to help you with each step along the way, giving you the confidence to handle both new recipes and tried and true favorites.

Digital meat thermometer
Automatically monitors the internal temperature of food, then alerts you and shuts off the oven when food is fully cooked, so you never have to guess at the doneness of your meal.

Sensor cooking
Tracks the progress of your food in the microwave and automatically adjusts the cooking time as needed to deliver optimal results.

HeatRight™ system

The features of the HeatRight™ system use the ideal settings to cook every dish properly.

AccuPop™ cycle
Uses a sound sensor to automatically adjust cooking time and help make the perfect popcorn, no matter what size bag you're popping.

AccuSimmer® burner/element
Delivers precise temperature control that is perfect for simmering.

Auto Adapt fan
Automatically adjusts fan speed on microwave hood combinations by sensing cooktop heat.

Bread proofing function
Low heat helps dough rise right in the oven.

Convection Conversion
Removes the guesswork from using convection by automatically converting standard times and temperatures to the convection equivalent.

Fan convection cooking
Uses a fan in the back of the oven to distribute hot air more efficiently. This helps eliminate cold spots so you can bake on any rack.

Induction technology
Faster and more efficient induction technology transfers energy directly into any magnetic base cookware.

Max Capacity recessed rack
Designed to use more space in the oven, so you can make room for large items.

*Based on average cleaning time of self-clean cycle with water and moderate soils. **Compared to traditional thermal-bake cycle on the same model.

COOKING GLOSSARY

Melt element
With both the power for everyday tasks and the low heat that's needed for melting and simmering, you'll have the flexibility you need with the Melt element.

Microwave Convection and Crisp technology
Conveniently cook favorite recipes even faster** and get home-cooked results right in the microwave. The microwave on this combination wall oven is like having a double oven, thanks to its three heat sources—a 1,600W grill element, a 1,600W convection element and a 900W microwave.

Noise reduction technology
Industry-exclusive noise reduction technology delivers a quiet cooking experience with the same powerful blower, so there's less clamor in the kitchen.

Perimetric Venting technology
Concentrates hood suction to targeted zones on the cooktop to quickly remove smoke and odors and provide a premium aesthetic.

Quiet Partner™ In-Line Smart Blower
Has the flexibility to be installed as an exhaust motor in the ventilation hood or as an in-line blower in the attic of your home for added noise reduction.

Temperature sensor
A built-in sensor monitors oven temperature and controls the cooking elements to deliver consistent, delicious results every time.

True convection cooking
Uses a fan plus a third heating element in the oven or microwave to distribute hot air more efficiently and cook faster.** Select microwaves use a rear fan to also cut roasting time compared to traditional thermal-bake ovens.

HelpingHand™ system

Inspired by your personal routine, the features of the HelpingHand™ system help you manage the daily chaos of your kitchen.

Edge-to-edge cooking grates
Extend across the entire cooktop to maximize cooking space.

Sabbath mode
Overrides the oven's automatic shut-off function, keeping it active for hours of uninterrupted cooking, making it possible to use the oven on the Sabbath without turning it on.

QuickSelect™ system

The QuickSelect™ system helps you get started and make changes fast with easy-to-operate controls and features.

Control lock
Disables the control panel to avoid unintended use or other changes to your cooking settings.

Dual and Triple elements
Provide the space-saving advantage of having two or three elements in one to handle various sizes of cookware.

Electronic controls
Turn the wall oven on and make changes with the gentle press of a finger.

FlexHeat™ burner
At 17,000 BTU or 18,000 BTU, this burner generates the high heat needed for rapid boiling and searing and provides uniform cooking at lower temperatures for your most delicate dishes, making this our most flexible burner ever.

FlexHeat™ element
Like having two or three elements in one with a 6" inner ring great for smaller pots and pans and expandable outer rings that make room to heat larger cookware.

Hot surface indicator light
Illuminates when the cooktop surface is still hot to the touch—even after the heating element has been turned off.

Infinite heat controls
Allow for smooth movement of temperature settings, from low to high. Adjust the heat up or down according to your cooking needs.

Tap Touch controls
These wall oven and cooktop controls are as simple to use as they are to clean.

QuickShift™ system

The QuickShift™ system helps you make the room you need with flexible features that adjust to make everything fit in a snap.

Adjustable split rack
Remove the rack insert to make room for large items like a turkey or attach it to make a full rack. The insert can also be used on the counter as a cooling rack.

COOKING GLOSSARY

ReadySet™ system

The features of the ReadySet™ system work with your schedule instead of interrupting it to help your day go smoothly.

Boost element
Increase the power of these elements, available on induction electric cooktops and ranges, with just a touch of a button.

Delay Bake
Lets you program the oven to begin cooking at a pre-set time. Prepare food for baking when it's most convenient for you and have dinner ready according to your schedule.

High-speed coil element
Heats up quickly to provide high temperatures for boiling and frying.

Keep Warm
Uses low heat to keep food warm inside the oven, so you can keep completed dishes from getting cold while you work on the rest of your meal.

Rapid Boil element
Quickly boil water with this element.

Rapid Preheat
Preheat the oven 25% faster* with Rapid Preheat. Ideal for single rack baking, this option heats the oven quickly and efficiently.

SpeedHeat™ burner
Sear and boil quickly with this 15,000 BTU to 17,000 BTU burner.

Warm Hold
Make sure every dish is ready at the same time. Warm Hold keeps food warm in the microwave until you're ready to serve it.

Warm Zone element
This low-powered (20-100W) center element keeps food warm while the rest of the meal is being prepared.

Warming drawer
Keeps food and dinnerware warm in a separate, heated drawer. Multiple temperature settings provide flexibility and help ensure that food done ahead of schedule doesn't get cold before the entire meal is ready to serve.

TimeSavor™ system

The TimeSavor™ system cuts out routine steps so you can be off to the next thing quickly.

Frozen Bake™ technology
Cook frozen foods faster with Frozen Bake™ technology** that allows you to skip preheating for favorites like pizza, lasagna, chicken nuggets, fries or pies.

Additional features

Broil element
Enjoy convenient crisping and broiling knowing your Whirlpool® front-control range has one of the most powerful broiling elements in the industry at 4,000W.

Closed door broiling
A broiling temperature management system helps prevent overheating to keep the kitchen comfortable and cool while still maintaining the optimal cooking temperature for food.

Convertible ventilation
Provides added installation flexibility by venting odors outside or recirculating them, depending upon your kitchen's ventilation setup.

Counter depth design ranges
Unlike most ranges on the market, Whirlpool® counter depth design ranges are all made to fit seamlessly into your kitchen. Designed to fit within 2" of a standard 25" depth countertop,† you can be sure they will stand out in the kitchen, without sticking out. Plus, optimized oven design maintains the cooking capacity you need to get dinner on the table.

Crisper pan
Pan-fry foods like bacon or potatoes in the microwave. The patented, non-stick design makes cleanup easy.

Custom broil
Allows you to set your preferred broiling temperature in 5-degree increments. High heat is best for grilling meats, while low heat is ideal for delicate tasks like melting cheese on lasagna.

Dual interior lighting
A pair of lights brighten up the interior so you can keep an eye on what's cooking.

FIT system
Appliances with the FIT system will fit seamlessly in your kitchen without the hassle of remodeling.

Flush installation approved
These wall ovens can be installed flush with your existing kitchen cabinets for a truly seamless look.

Glass edge LED lighting
Offers superior style and practicality, while sensing when your kitchen lights dim and automatically activating.

Grill rack
Provides the ideal setup when using the microwave grill function, allowing you to place food closer to the grill element for faster cooking. Steaks look and taste as if they were cooked under the oven broiler but are ready in less time.

Kids Menu
Cooks a variety of child-friendly food with preprogrammed cycles that are activated by the simple push of a button.

*Single rack baking with Rapid Preheat option versus three-rack without option.
**Compared to a traditional preheat and bake cycle for pizza, nuggets/fries, pies and lasagna. †Excluding handle.

COOKING GLOSSARY

Large oven window
Monitor cooking progress without opening the door, keeping oven temperatures steady and undisturbed.

LP Convertible
These gas cooktops and ranges can be converted from natural gas to a liquid petroleum fuel source.

Microwave steamer
Works in tandem with the steaming function to conveniently steam foods such as rice, vegetables and fish with fresh, pleasing results.

Oval center burner
A center burner maximizes your cooktop's usable space. Plus, its specialized oval shape easily accommodates longer pans.

Panoramic halogen lighting
See food clearly so you can check doneness without opening the door, keeping oven temperature steady for consistent cooking.

Star-K certified
Star-K certified appliances can be used on the Sabbath, as well as holidays of the kosher-observant Jewish consumer.

Wall oven compatible
These cooktops can be installed in a counter over a single wall oven.

DISHWASHERS

Skip the scrubbing and soaking, no matter the mess

WashRight™ system

Provide the ideal wash and dry for each load with features that sense and adapt. The TotalCoverage spray arm cleans with twice the jets* for more coverage, while the TargetClean™ option's 40 focused spray jets scour away baked-on foods. Silverware Spray helps remove stuck-on food from utensils to virtually eliminate rewashing.

ReadySet™ system

Features like the 1-hour wash cycle work with your schedule to help your day go smoothly. This cycle cleans dishes in half the time** so you have what you need when mealtime rolls around.

QuickShift™ system

Make the room you need with the adjustable upper rack. It adjusts two inches up or down to allow for larger items in either rack. The in-door silverware basket also frees up space by easily fitting on the front of the lower rack or in the door.

NOTE: Not all features available on all models.
Model shown: Dishwasher WDT920SADM

*Compared to Whirlpool® dishwashers without TotalCoverage spray arm.
**Compared to Normal cycle with lightly soiled loads.

TRASH COMPACTORS & FOOD DISPOSERS

Reduce your trash volume and trips to the curb

QuickSelect™ system

Make changes in an instant with easy-to-operate touch pad controls on the front of the trash compactor or sleek integrated controls that hide away when not in use.

Automatic anti-jam

If the door is opened during operation, the compression ram will automatically reverse to prevent jamming.

Touch-Toe™ drawer opener

No free hands? No problem. Use the convenient Touch-Toe™ drawer opener to open your trash compactor.

NOTE: Not all features available on all models.

DISHWASHER ACCESSORIES

Cleaning & Maintenance

affresh® Dishwasher & Disposal Cleaner

Powers away hard water mineral residue and is Designed for the Environment.* Pouch contains 6 tablets. – **W10282479**

Dishwasher Rack Repair Kit

Includes everything you need to repair your dishwasher rack tines. It contains 150 tine tips, a 4-oz bottle of vinyl touch-up paint/adhesive with a brush and instruction sheet.
Blue – **4396839RC**
Grey – **4396840RC**
White – **4396838RC**

Dishwasher Rack Accessories

Small Items Bag

Holds extra-small utensils, contact cases and other small items that would normally slip through the dishwasher rack. – **8519716**

Small Items Basket

Fits all Whirlpool® dishwashers. It holds baby items, jar lids and other small utensils that would normally slip through the dishwasher rack. – **3370993RB**

Hoses & Fittings

Braided Hoses

Each includes: ⅜" brass elbow, ⅜" brass compression fitting and ⅜" brass swivel gooseneck fitting.
6' braided hose (without teflon tape) – **W10278635RP**
6' braided hose (with teflon tape) – **W10278636RC**

Drain Hoses

No-kink design is made for hot water.
12' drain hose – **Tall Tub-3385556**
12' drain hose – **8531858**
6' drain hose – **8269144A**

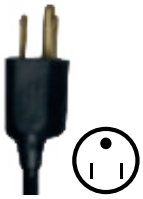
EPDM Hoses

Each includes: ⅜" brass elbow, ⅜" brass compression fitting and ⅜" brass swivel gooseneck fitting.
4' red EPDM hose – **W10278625RP**
5' red EPDM hose – **W10278626RP**
6' red EPDM hose (retail polybag) – **W10278627RP**
6' red EPDM hose (retail claim) – **W10278627RC**

Swivel Gooseneck Fitting

Space-saving 90° design makes this ¾" x ⅜" elbow hose fitting perfect for easy dishwasher installation. A ⅜" brass compression fitting is included. Required on dishwashers produced after 2009. – **W10685193**

*Visit epa.gov/dfe for more information.



Power Cords

5', 3-Prong Dishwasher Power Cord

Take home everything you need to bring power to your dishwasher with the UL-listed power cord, strain relief, wire nuts and installation instructions. – **4317824**

6', 3-Prong Dishwasher Power Supply Kit

This 6', 90° UL-listed power cord kit fits dishwashers from most major brands and includes a power cord, metal strain relief bracket, wire nuts and instructions. – **W10278923RP**

Mounting Kits

Undercounter Mounting Kit

Works with all standard size dishwashers. Can be used with solid surfaces, including granite. – **W10426979**

DISHWASHER GLOSSARY

HelpingHand™ system

Inspired by your personal routine, the features of the HelpingHand™ system help you manage the daily chaos of your kitchen.

Cycle memory
Whirlpool® dishwashers remember the last cycle you picked and automatically choose it for you the next time.

Cycle status indicator
The full lit display will glow for wash, drain, drying, sanitized and clean. It will also display the remaining time for the cycle in hours and minutes.

QuickSelect™ system

The QuickSelect™ system helps you get started and make changes fast with easy-to-operate controls and features.

Integrated console
This sleek exterior control panel is hidden away.

Touch pad controls
Trash compactors feature easy-to-operate touch pad controls on the front of the compactor.

QuickShift™ system

The QuickShift™ system helps you make the room you need with flexible features that adjust to make everything fit in a snap.

Adjustable upper rack
Manually raise or lower the upper rack two inches to better fit tall items.

Cup shelves
Stack two levels of coffee mugs or small cups and secure delicate glassware when used as a stemware holder in the upper rack.

Folding tines
Secure dishes during the wash cycle or fold down to create space for larger items.

In-door silverware basket
Designed to clean better and fit in four places for maximum flexibility, the in-door silverware basket rests on two locations in the bottom rack, the front of the lower rack or in the door for 100% usable rack space.

Sliding tines
Move left or right to fit your dishes. Now you have twice the space between tines to fit larger bowls for optimal cleaning.

ReadySet™ system

The features of the ReadySet™ system work with your schedule instead of interrupting it to help your day go smoothly.

1-hour wash cycle
Thoroughly cleans your dishes in nearly half the time.* This hour-long cycle helps you take care of dirty dishes when you are in a rush.

Delay wash option
Wash dishes according to your schedule. This option lets you delay washing for up to 8 hours until off-peak hours when utility rates may be lower.

Quick wash cycle
Use for prerinsed or lightly soiled loads.

WashRight™ system

The features of the WashRight™ system adjust and work together to provide the ideal wash and dry for each load.

Heated dry option
Dries dishes with heat. For best drying results, use this option with rinse aid.

Heavy cycle
Adds more time to the cycle to clean heavily soiled items.

High temperature wash option
Choose this option when additional cleaning of items like baby bottles, glassware or dishes is required.

Sani rinse option
Sanitizes dishes by eliminating 99.999% of food and bacteria.

Sensor cycle
Automatically selects the right wash and dry settings for your load by using two separate sensors to measure temperature, soil level and load size once during the prewash and once during the wash cycle. It cleans tough soils using just the right amount of time, energy and water.

Silverware Spray
Helps remove stuck-on food from utensils, like peanut butter on knives and oatmeal on spoons. It delivers a concentrated shower of water to the in-door silverware basket to virtually eliminate rewashing.

Soak & clean cycle
Quietly soaks dishes with an extended prewash, which eliminates the need to presoak dishes before loading in the dishwasher. This cycle is ideal for loads with heavy amounts of dried-on or hard-to-clean baked-on food.

*Compared to Normal cycle with lightly soiled loads. **Compared to Whirlpool® dishwashers without TotalCoverage spray arm.

DISHWASHER GLOSSARY

Soil sensor
Determines how dirty dishes are and adjusts the Normal cycle as needed to make sure dishes come out clean.

TargetClean™ option
Uses 40 targeted spray jets in a designated wash area to scour away baked-on foods without soaking or scrubbing. From casserole dishes to pots and pans, this option delivers the right coverage to clean large items.

TotalCoverage spray arm
Cleans with twice the jets** for more coverage. A smarter sequence of spray patterns from multiple nozzles hits dishes throughout the cycle, so you can be sure they're all clean and ready to go.

Additional features

30-Day Money Back Clean & Quiet Guarantee
If you are not completely satisfied that your new Whirlpool® dishwasher is quieter and cleans better than your previous model, Whirlpool Corporation will take it back within 30 days of the date of purchase and refund the full price to you. Visit whirlpool.com for complete details and qualified models.

Automatic anti-jam
If the door of a Whirlpool® trash compactor is opened during operation, the compression ram will automatically reverse to prevent jamming.

CEE Tier standards
Based on the Consortium for Energy Efficiency (CEE) qualifying product lists. Visit cee1.org for more information.

Easy Rollers™ installation wheels
Easily position your Whirlpool® compactor where you need it with the Easy Rollers™ installation wheels.

ENERGY STAR® certified
Exceeds government standards to help conserve natural resources and save money on utility bills.

In-rack silverware basket
Silverware gets its own place in the dishwasher with the in-rack silverware basket.

Normal cycle
Use for loads with normal amounts of food soil. This cycle is great for everyday loads.

Nylon racks
Durable nylon coating helps resist rust and prevent scratching.

Pots & pans cycle
Use for heavily soiled, hard-to-clean items.

Rinse only cycle
Keeps food from drying on your dishes and reduces odor build up in your dishwasher until you are ready to wash a full load.

Stainless steel interior
Retains heat from wash and rinse cycles to promote drying. The stainless steel interior also cools faster than the dishes, allowing moisture to condense on the interior walls and drawing additional water off the hotter dishes.

Touch-Toe™ drawer opener
Easily open Whirlpool® trash compactors without your hands using the Touch-Toe™ drawer opener. A light tap of the toe is all that's needed to release the drawer.

Every day, care.™
